DETAILED ACTION

1. This application has been reviewed. Original claims 1-30 are pending. The rejections cited are as stated below:

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Stoutenburg et al. US Pat. Pub. No. 2003/0222135 A1.

Claims 1-30, Stoutenburg discloses a computerized method and corresponding system for transferring money, comprising the steps receiving at a host computer system from a point of sale device transactional information that includes information on a bank account that is to receive the money, wherein the money is provided in cash at the point of sale device, storing the transaction information at the host computer system,

transmitting at least some of the transaction information to an intermediary computer system that is configured to interact with a plurality of banking networks in different countries having an international bank computer system having regional banks, and wherein the request to deposit the money passes from one of the regional banks and into the local banking network, determining with the intermediary computer system which one of the banking networks is associated with the bank account that is to receive the money, transmitting a request from the intermediary computer network to a local banking network information on the bank account that is to receive the money and an amount of money to deposit, and crediting the bank account with the amount of money as claimed in claims 1-30 [Para 0117 thru 0235].
